## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6 is rejected under 35 U.S.C. 102(b) as being anticipated by McArdle (US 5747416; 5/5/98). McArdle teaches a method of applying a composition comprising a protein-polysaccharide to plants and cut flowers in order to preserve them. See abstract, column 1 lines 5-36.

Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by Brantley (US 3929448; 12/30/75). ). Brantley teaches a method of applying a composition comprising sugar to cut flowers (plants) in order to preserve them. See abstract, claims 1 and 7.

### ***Claim Objection / Allowable Subject Matter***

Claim 27 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 1,7,8,13-20,28-34 are allowable. The prior art does not teach or suggest the invention comprising the bonding of a hydrophobic group to a sugar via glycoside, ester or amide linkage.
